JOB TITLE:
Solution Consultant – Little Rock, AR

JOB SUMMARY:
The ideal candidate must be an engineering design professional in the manufacturing industry and have a passion for engineering technology and processes along with a proven track record of successfully implementing positive change.

This position requires providing high quality services to customers including:
- Analysis of customers' existing design processes.
- Working with the sales team to evaluate customer needs.
- Development of requirements for implementation and/or adoption of new processes and/or technology.
- Project Management for implementation and/or adoption of new processes and/or technology.
- Conducting professional training in our classrooms, on customer sites, and via web-casts.
- Configuring engineering design and data management products. (Autodesk and others)
- Performing software installations, on-site consultation and on-site project based training.
- Providing helpdesk technical support for customers.

This is customer facing technical position servicing the central US but primarily focused on the Little Rock, AR area. You must be willing and able to call and schedule visits with existing clients in this territory.

You must be willing to grow, be coachable, and open to being challenged in a constructive spirit of growth & success.

REQUIREMENTS:
- 3+ years of using design software in the manufacturing industry.
- Demonstrated success in department or company level technology adoption.
- Ability to learn software rapidly.
- Passion for technology.
- Strong interpersonal skills.
- Strong written and verbal communication skills.
- Detail oriented with strong organization skills.
- Pro-active/self-motivated
- Ability to work effectively both independently and as a member of a team.
- Bachelor's degree or equivalent experience.
- Valid driver's license and clean driving record.

PREFERRED:
- Autodesk Inventor Certified Professional
- IT experience and /or knowledge.
- Classroom instructor experience.
- Technical support (helpdesk) experience.

COMPENSATION: Salary + Bonuses

BENEFITS:
Family medical; prescription coverage; short-term disability; long-term disability; life insurance available.
401(k) with matching; 5 days vacation after 6 months and 10 days vacation after 1 year.

HOW TO APPLY: Send resume to: career@d3tech.net
