D3 TECHNOLOGIES Hosts the Future of Making Things in Manufacturing

Overland Park, KS – January 19, 2016 – D3 TECHNOLOGIES, the Leader in Autodesk manufacturing solutions, hosted an educational seminar this week at the premier TopGolf entertainment venue in Overland Park, KS. This event was aimed to help clients better understand how technology is driving disruption into all aspects of manufacturing.

Sean Manzanaras, Senior Industry Manager at Autodesk, presented about the strategies and solutions driving innovation, efficiency and competitive advantage in the manufacturing industry and explored the ways that others are accelerating, innovating, and staying competitive today.

With more than 50 manufacturers in attendance from all around the Kansas City area as well as some who drove more than 150 miles to attend, it is clear that the manufacturing companies today are looking to grow and evolve as technology advances.

Following the seminar, clients along with D3 and Autodesk staff enjoyed 2 hours of golf from the golfing bays right outside their meeting space.

“The changes at Autodesk are very impressive. They are definitely taking a leadership role,” stated one attendee. “This was a great event allowing us to better understand where Autodesk is heading and how D3 can help us get there.”

D3 Technologies can be contacted at: (877) 731-7171; 4600 W. Kearney St., Springfield, MO 65803; www.d3tech.net

About D3

Founded in 1998, D3 Technologies is a consulting company that partners with manufacturers to help them leverage the latest in engineering technologies in order to design their products better and bring them to market faster. With multiple offices and training centers located all across the Midwest, D3 is a true partner that delivers solutions to help all manufacturing companies pursue continuous improvement goals to increase productivity and profitability. As one of the largest and most accomplished Autodesk Manufacturing Partners in North America, D3 focuses on 3D design, product data management/product lifecycle management (PDM/PLM), engineer-to-order (ETO), and configure-to-order (CTO) solutions.

Autodesk, the Autodesk logo and Inventor are registered trademarks or trademarks of Autodesk, Inc., and/or its subsidiaries and/or affiliates in the USA and/or other countries.
