D3 TECHNOLOGIES Exclusively Named Master Reseller of Autodesk CAM Solutions

Springfield, MO - April 11, 2014 - D3 TECHNOLOGIES, one of the leading providers of Autodesk Manufacturing Solutions, is privileged to announce that they have been chosen as one of six Master Resellers of Autodesk CAM Solutions. With D3's recent establishment of their Prototyping Division through the acquisition of a local machine shop and addition of CNC machining capabilities, D3 is more than equipped to support their clients. Many times, their customers need physical prototypes during the validation stage of the design process. Not only will D3 be able to provide their customers with physical prototypes, but they will be using Autodesk's integrated CAM Solutions to create all the G-Code to make it happen. The integration of Autodesk CAM Solutions directly within the design tools now gives machinists, engineers, and designers the ability to adapt to real-time changes and instantly update tool paths.

"Team D3 is honored and excited to be designated as a Master Reseller for Autodesk CAM Solutions. We commit to provide our valued customers with an integrated CAM solution that not only meets their needs but exceeds their expectations with superior performance and top-quality results." stated Kevin Schlack, President of D3.

Autodesk CAM Solutions Include:

[Autodesk Inventor HSM Express and Standard](#) - CAM Solution for Inventor

[HSMWorks and HSMXpress](#) - CAM Solution for SolidWorks

[CAM 360](#) - First CAM in the cloud

About D3

Founded in 1998, D3 Technologies is a consulting company that partners with manufacturers to help them leverage the latest in engineering technologies in order to design their products better and bring them to market faster. With multiple offices and training centers located all across the Midwest, D3 is a true partner that delivers solutions to help all manufacturing companies pursue continuous improvement goals to increase productivity and profitability. As one of the largest and most accomplished Autodesk Manufacturing Partners in North America, D3 focuses on 3D design, product data management/product lifecycle management (PDM/PLM), engineer-to-order (ETO), and configure-to-order (CTO) solutions.
