D3 TECHNOLOGIES Named Autodesk Q4 Partner of the Quarter

Springfield, MO - March 3, 2014 - D3 Technologies, one of the leading providers in Autodesk Manufacturing Solutions, has once again been selected from more than 450 Autodesk partners in North America as Autodesk Channel Partner of the Quarter for the fourth quarter of the 2014 Autodesk fiscal year. D3 was presented with this top seller award during a quarterly wrap-up call on March 3, 2014. The Autodesk Channel Partner of the Quarter award is a prestigious title given out by Autodesk each quarter.

“I’d like to extend my congratulations to the entire organization with D3 and congratulate you also on a fantastic Q4 as well as some great work processes put in place and great collaboration with Autodesk,” stated Autodesk’s Kim Renshaw, Director of America’s VAR Channel Sales.

D3 has achieved this recognition due to their outstanding numbers in both overall growth and revenue over the last quarter. D3 works collaboratively with Autodesk to provide technical and consulting resources to help users fully implement their expanded Autodesk solutions set and has shown outstanding performance and dedication to the manufacturing community for the past 16 years. Successful customers consider D3’s Digital Prototyping Experts as an extension to their own teams. This is the third time D3 has received the Partner of the Quarter award; the first time was in the third quarter of fiscal year 2007, and the second time was in the fourth quarter of fiscal year 2008. Not only is this the third time D3 has been recognized in this way, they were also awarded Partner of the Year in the 2008 fiscal year. This is by far the most coveted award given out by Autodesk each year.

“We’re very honored to have received this prominent title from Autodesk. We couldn’t have gotten here without the trust and loyalty of our manufacturing clients,” states Kevin Schlack, president of D3. “As trusted advisors, we work as part of their team to maximize throughput of engineering through the optimization of people, processes, and technologies. We promise to honor this award by continuing to excel in providing our customers with the highest level of service and support they deserve.”

About D3: Founded in 1998 by manufacturing engineering & design professionals, D3 Technologies is a trusted advisor to manufacturers helping them be more innovative while shortening lead times by leveraging the latest in engineering & design technologies. With multiple offices and Autodesk Training Centers located across the central U.S., D3 is a one of the largest and most accomplished Autodesk Manufacturing Partners in North America. Utilizing Lean Engineering methodologies, D3 helps maximize the throughput of engineering through the optimization of people, processes, and technologies.
