D3 TECHNOLOGIES Training Centers Recognized as Premier Autodesk Authorized Training Centers

March 29, 2006 - Springfield, MO - Representing its continued strength in the MCAD market, D3 TECHNOLOGIES, an Autodesk Premier Solutions Provider - Manufacturing Specialist, announces that all of their training facilities have been designated Premier Autodesk Authorized Training Centers (ATC). Autodesk, Inc. is the world's leading software and services company for the building, manufacturing, infrastructure, digital media and wireless data services fields. The ATC network is a select group of instructor led training facilities that are recognized as the authority on Autodesk software technical training in a classroom setting. Not only has D3 been able to meet Autodesk's rigorous standards of excellence to become an ATC, they have also been named a Premier ATC, the highest recognition for training centers that provide a more comprehensive training solution to their clients.

Autodesk
Authorized Training Center

As a Premier Autodesk Authorized Training Center, D3 TECHNOLOGIES offers both public training classes as well as on-site and off-site private training for manufacturing companies, designing the courses to cater to a client's specific needs. These instructors are professionals in MCAD solutions and use Autodesk products in daily industrial applications. They have gone through rigorous testing and completed training that is specifically designed to meet the demands of manufacturing's top industrial clients. D3 has eight Autodesk Inventor Certified Experts on staff, so you can be sure you are receiving a quality, up-to-date education from instructors who have a comprehensive knowledge of Autodesk Inventor Series software. D3's training facilities have also received recognition as an Autodesk Authorized Test Delivery Facility, providing them with the ability to test and certify experts on the software at all of their locations.

D3's unique abilities to focus on the manufacturing industry provide them with the specialties necessary to train clients quickly for a faster return on investment from their software. D3 TECHNOLOGIES understands that a client's time is valuable, which is why they work with their clients to set up training classes that fit into their schedule, and provide them with thorough but concise lessons on the software. Along with this training comes constant technical support from certified experts who can answer your questions and walk you through the steps needed to solve your problems. D3 TECHNOLOGIES can do more than just sell you software; they can train, implement, and support all aspects of your MCAD needs, providing you with a complete solution to your manufacturing design demands and helping you get the most out of your Autodesk software.

You can find D3's Premier Autodesk Authorized Training Centers in four locations:

About Autodesk

Autodesk, Inc. is a design software and digital content company, founded in 1982 and based in San Rafael, California. Autodesk was the first to revolutionize the software industry with its introduction of AutoCAD software. The popularity of AutoCAD forged the company into a commitment for practical innovation that drives productivity and profitability. Along with AutoCAD software, Autodesk leads the industry in technology for building, infrastructure, manufacturing, media and entertainment, and wireless data. For more information, please visit www.autodesk.com.
