Little Rock Office Recognized as Autodesk Authorized Training Center

March 21, 2006 - Springfield, MO - Representing its continued strength in the MCAD market, D3 TECHNOLOGIES announces that their newest office in Little Rock, Arkansas has been designated an Autodesk Authorized Training Center (ATC). Autodesk, Inc. is the world's leading software and services company for the building, manufacturing, infrastructure, digital media and wireless data services fields. The ATC network is a select group of instructor led training facilities that are recognized as the authority on Autodesk software technical training in a classroom setting. In order to be recognized as an ATC, resellers must meet Autodesk's rigorous standards of excellence.

As an Autodesk Authorized Training Center, D3 TECHNOLOGIES offers both public training classes as well as on-site and off-site private training for manufacturing companies. These instructors are professionals in manufacturing solutions and use Autodesk products in daily industrial applications. Their training is specifically designed to meet the demands of manufacturing's top industrial clients.

D3's unique abilities to focus on the manufacturing industry provide them with the specialties necessary to train clients quickly for a faster return on investment from their software. D3 TECHNOLOGIES understands that a client's time is valuable, which is why they work with their clients to set up training classes that work with their schedule, and provide them with thorough but concise lessons on the software. Along with this training comes constant technical support from certified experts who can answer your questions and walk you through the steps needed to solve your problems. D3 TECHNOLOGIES can train, implement, and support all aspects of your MCAD needs. Not only is the Little Rock office staffed by talented individuals, it is supported by the entire Team D3 organization with sales and technical support offices located in Springfield, Kansas City, and Tulsa.

About D3

Founded in 1998, D3 TECHNOLOGIES is a mechanical computer-aided design (MCAD) consulting firm, based out of Springfield, Missouri, focusing on 3D design, product data management/product lifecycle management (PDM/PLM), engineer-to-order (ETO), and configure-to-order (CTO) technology. For more information on D3, please visit www.d3tech.net.

About Autodesk

Autodesk, Inc. is a design software and digital content company, founded in 1982 and based in San Rafael, California. Autodesk was the first to revolutionize the software industry with its introduction of AutoCAD software. The popularity of AutoCAD forged the company into a commitment for practical innovation that drives productivity and profitability. Along with AutoCAD software, Autodesk leads the industry in technology for building, infrastructure, manufacturing, media and entertainment, and wireless data.
