## D3 Acquires CADVisions' Autodesk Manufacturing Interests in Kansas & Oklahoma

**Springfield, Missouri** - January 1, 2007 - D3 TECHNOLOGIES, the leader in Autodesk manufacturing solutions, announces the purchase of the Autodesk manufacturing interests from CADVisions of Dallas, Texas. Effective January 1, 2007, CADVisions will be referring their manufacturing clients in both Kansas and Oklahoma to D3, an Autodesk reseller that focuses entirely on the manufacturing industry. CADVisions will continue to focus their efforts within the Architectural and Civil industries in the two state area while maintaining their Autodesk manufacturing interests in Dallas, TX. Both D3 and CADVisions feel that this agreement will provide their customers and clients with the focus they need in their respective industries.

Roy Burchfield, President of CADVisions comments, "With the industry trend pushing for Autodesk Value-Added Resellers to become more specialized and capable in providing high-level solutions and technical assistance in the products they are authorized to sell, we feel that it is in the best interest of CADVisions, and more importantly, our customers, if we focus our strengths and experience towards the Architectural and Civil industries. We feel confident that we have secured a capable and talented Autodesk Manufacturing partner to pick up where we left off. We know we have found that in D3 TECHNOLOGIES."

Founded in 1998, D3 TECHNOLOGIES has grown to become a well-known and respected Autodesk manufacturing solutions provider in the Midwest. With a highly experienced and talented team, D3 can provide clients with the industry expertise needed to excel and improve the return on investment from their Autodesk software. Not only is their workforce well-equipped, they have also been named an Autodesk Top 10 Reseller in Customer Loyalty, as designated by their customers through a third party survey.

"We realize that customers have a choice when choosing their Autodesk partner and solutions providers, but we at D3 are confident that we can provide those customers within the manufacturing industry with the highest quality services and expertise available. We firmly believe that D3 is the best choice for all their Autodesk manufacturing solutions," states D3 President, Kevin Schlack.

Excited about this opportunity to strengthen their territory throughout the Midwest, D3 looks forward to developing strong customer relationships with their new customer base in the Kansas and Oklahoma areas. As an Autodesk reseller with the elite status of Premier Solutions Provider - Manufacturing Specialist, D3 provides the area with the full spectrum of sales, service and training in all Autodesk manufacturing software. Also offering high quality technical support and training classes in their Autodesk Authorized Training Centers.

### About D3

Founded in 1998, D3 TECHNOLOGIES is a mechanical computer-aided design (MCAD) consulting firm with offices located in Springfield, MO, Kansas City, MO, Tulsa, OK, Little Rock, AR, St. Louis, MO and Wichita, KS. #### About CADVisions

With the corporate office located in Dallas' famous INFOMART, CADVisions opened in 1985 as one of the first engineering firms in the Dallas/Ft Worth area to produce drawings on CAD. CADVisions became an Autodesk authorized reseller in 1992 and has excelled in the market as the leading provider of CAD solutions to design professionals since then. There are now offices in Tulsa, OK and Wichita, KS. CADVisions has industry expertise in the AEC and Civil industries with design software solutions for Architects, Engineers and Civil Engineers. Get more information on CADVisions, Inc. at [www.cadvisions.com](http://www.cadvisions.com).

#### About Autodesk

Autodesk, Inc. is a leading design software and digital content company, founded in 1982 and based in San Rafael, California. Autodesk was the first to revolutionize the software industry with its introduction of AutoCAD software. The popularity of AutoCAD forged the company into a commitment for practical innovation that drives productivity and profitability. Along with AutoCAD software, Autodesk leads the industry in technology for building, infrastructure, manufacturing, media and entertainment, and wireless data.
