## D3 TECHNOLOGIES Opens Ninth New Office in Memphis, Tennessee

**Springfield, MO - October 15, 2007** - D3 TECHNOLOGIES, the leader in delivering Autodesk manufacturing solutions, would like to announce the opening of its new office and training center in Memphis, Tennessee. This is D3's ninth expansion as they continue to extend their reach to manufacturing communities throughout the central region of the U.S.

With this expansion, D3 now has offices located in 6 states including Missouri, Arkansas, Kansas, Oklahoma, Colorado and Tennessee. The new Memphis location will be able to provide the community with an Autodesk dealer focused specifically in the manufacturing industry.

Kevin Schlack, D3 President, states, "D3 has become well known for the level of service and support we continue to provide to our customers. We understand that all manufacturing companies are unique and with our focus on manufacturing, no one can better serve the industry. Our new Memphis office will continue this tradition by serving the manufacturing community in the region and providing them with a partner that is committed to improving their productivity."

Serving the Memphis area will be Regional Sales Manager, Ramon Green. Ramon received his education from the University of Central Arkansas in Conway, and has over 14 years experience in technology sales. At D3 he "hopes to change the way engineers and designers create and companies manufacture."

D3 will also be holding a variety of free training classes at their new Memphis office beginning in December. These classes will cover an array of topics including Autodesk Inventor, AutoCAD Mechanical, and AutoCAD Electrical. For a schedule of events please visit [www.d3tech.net](http://www.d3tech.net).

### About Autodesk

Autodesk, Inc. is a leading design software and digital content company, founded in 1982 and based in San Rafael, California. Autodesk was the first to revolutionize the software industry with its introduction of AutoCAD software. The popularity of AutoCAD forged the company into a commitment for practical innovation that drives productivity and profitability. Along with AutoCAD software, Autodesk leads the industry in technology for building, infrastructure, manufacturing, media and entertainment, and wireless data.
