

# D3's Autodesk HSM CAM Training & Services

## CAM Productivity Package

D3's CAM Training & Support plans can be purchased individually or as a savings package which includes all of our essential courses, technical support, and post processor modification, applicable to one user for a one-year term.

Included in D3's <b>CAM Productivity Package (\$2,995):</b>	<b>If Purchased Separately:</b>
• Fusion CAM, Inventor HSM or HSMWorks Essentials for Milling.....	\$1,195
• Fusion CAM, Inventor HSM or HSMWorks Essentials for Turning.....	\$795
• CAM Phone and Remote Support.....	\$495
• Post Processor Customization (1 Modification).....	\$495
• Access to All of D3's Public Training Classes (CAD Unlimited).....	\$2,995

**Notes:**

- Customers may choose Milling and/or Turning. No discounts provided if only one course is needed.
- If customer already has CAM support, price will be prorated based upon \$495 for unused month(s).

## Other Complimentary Services

Autodesk provides an extensive library of post processors at no charge.

D3 also provides 3D printing & CNC machining services. Please inquire if interested.

## Hourly Contract Rate - \$200/Hr\*

**Mentoring** - One-on-one training and guidance to help prepare your skills for the complex projects or if you just need a helping hand with a project you're stuck on

**3D Modeling** - If you run into snags creating the models you need to machine, allow our team to create the 3D models for you

**3D Scanning** - When you have a physical but not a 3D model, we can scan it in and create a virtual copy

**G-Code Creation** - If you just can't justify owning and learning the software, we can create the G-code you need

**Post Modifications** - In the event that you just need one done on a time and material basis (\$495/modification)
